Subject: Request for response, December 8, 1998 correspondence

Dear Mr. Snow:

This is to ask for an early response to our December 8, 1998 request for additions recognizing the existence of and need to protect, enhance and restore San Joaquin - Sacramento River system steelhead. Copies of the principle correspondence are enclosed. The accompanying letter sent to Dr. Hogarth of NMFS expands upon our letter to you. You will appreciate the need for a timely response. If CalFed is unable to accommodate the elements we have advanced we need to know that as soon as possible.

Sincerely,

Charles P. Bucaria, Sr.
Vice-President, Conservation, NCCFFF
